

For Immediate Release

New Bluetooth Portable Vibrating Induction Speaker Available from CableWholesale

Livermore, CA – The new Bluetooth 4.0 Portable Vibrating Induction Speaker from CableWholesale turns virtually any hard surface—desk, table, countertop—into a speaker. The speaker delivers 360-degree, omni-directional sound from any Bluetooth 4.0 (or earlier) audio source—including smart phones, MP3 players and tablets—or from the built-in 3.5mm stereo jack.

Built-in Near Field Communication (NFC) capabilities allow users to quickly and easily establish radio communication with other NFC-enabled devices. With its built-in microphone, the speaker can be used as a telephone answering device or hands-free speaker phone.

The wireless speaker has 26 watts of power for loud and clear transmission. Multiple speakers can be daisy chained together for even greater sound. A built-in rechargeable battery offers two to three hours of cordless music playback.

The Bluetooth Portable Vibrating Induction Speaker is available now from CableWholesale for \$69.36. More information is available [here](https://www.cablewholesale.com/products/mobile-accessories/bluetooth/product-5002-40100.php) (.https://www.cablewholesale.com/products/mobile-accessories/bluetooth/product-5002-40100.php) A demo and example of the sound quality is available [here](https://www.youtube.com/watch?v=8z5ehhUVPIs). (https://www.youtube.com/watch?v=8z5ehhUVPIs). (The sound sample is at 2:35 on the video.)

Lifetime Warranty and Triple Quality Check

Like all CableWholesale products, the Bluetooth Portable Vibrating Induction Speaker comes with a lifetime warranty. All CableWholesale products are checked three times before shipping to ensure they meet the company's quality standards.
